

## **Specifications (HS-400N)**

|                        |                 |                            |
|------------------------|-----------------|----------------------------|
| Application            |                 | Heavy-Duty Tractor-Trailer |
| Rated Voltage          |                 | 12 ~ 24 VDC                |
| Operation Temperatures |                 | -40 ~ 185 °F               |
| Detection Area         | Depth           | 3 zones, 2ft, 4ft, 9ft     |
|                        | Width           | 9'                         |
| Beam Angle             | Vertical (up)   | 35 °                       |
|                        | Vertical (down) | 15 °                       |
|                        | Horizontal      | 130 °                      |
| # of Detectors         |                 | 2                          |
| Cable Length           | Power cable     | 43 ft x 1ea                |
|                        | Display Cable   | 45 ft x 1ea                |
|                        | Detector cable  | 18 ft x 1ea (Ext. 13ft)    |
| Weight                 |                 | 5.5 lbs                    |
| Material               |                 | ABS, Polycarbonate         |
